

### FY2020 Results Roadshow

Paul McGlone, CEO Naomi Rule, CFO

#### Financial Highlights

A\$14
million
ANNUALISED
RECURRING REVENUE

17% from FY19

CASH POSITION AT EOFY2020

A\$38.1 million

22% consensus

Investment (post-period) of A\$28m by large US fund, Federated Hermes Inc., improves cash position

#### **Operational Highlights**

Two Auto programs complete
- start of production in
coming months (North
America, Europe)

Guardian connections increased 46% to 23,415 units despite COVID-19

Global regulatory momentum continues to increase

Guardian has travelled more than 5 billion kms

FOVIO Chip optimized for Euro NCAP

Human factors approach featured at CES 2020 on BMW stand

Strategic partnerships building opportunity in Automotive

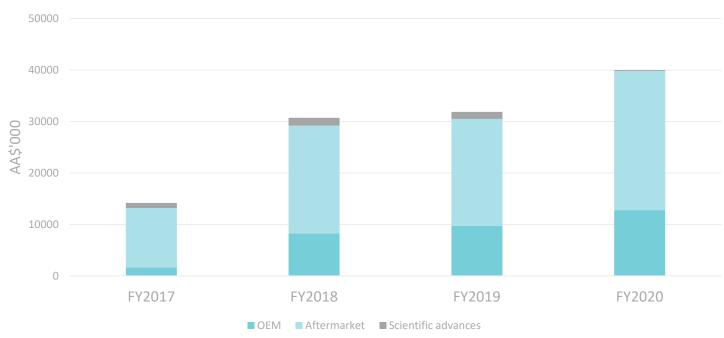

Business restructure and permanent cost savings, estimated at A\$12m over FY2020 and FY2021

Our purpose – to get everyone home safely

#### **Trading Update**

#### Year on Year Sales Revenue by Segment

#### Summarised Profit and Loss

Gross profit         14,433         18,525         (22           Gross margin         36%         58%           Other income         2,609         1,258           Expenses         8         1,258           Research and development         30,976         35,895         (14           Customer support and marketing expenses         6,561         8,799         (25           Occupancy and facilities expenses         1,800         2,619         (31           Corporate services expenses         19,478         13,605         43           Other expenses         3,691         825         34	Profit and Loss

(101%)	(135%)			

#### NOTES

Normalised P&L demonstrates underlying business improvement year on year:

- Engineering Costs reassigned to Research & Development (as in FY2019)
- One-off government grants removed from Other Income
- Employee incentives paid in respect to FY2019 added to FY2019 and removed from Corporate Services FY2020
- Restructuring costs removed from Corporate Services
- Unrecoverable receivable from Other Expenses

#### Summarised Balance Sheet & Cashflow

Balance Sheet			
	FY2020	FY2019	Variance
	A\$'000	A\$'000	%
Assets	, - \		
Cash	38,138	54,809	(30)
Trade and other receivables	9,584	15,670	(39)
Inventory	4,743	8,211	(42)
Other current assets	4,745	14,322	(67)
Current assets	57,210	93,012	(38)
Non-current assets	8,478	10,633	(20)
Total assets	65,688	103,645	(37)
Liabilities			
Trade and other payables	7,874	3,621	117
Other current liabilities	5,636	5,522	2
Current liabilities	13,510	9,143	48
Non-current liabilities	5,981	7,022	(15)
Total liabilities	19,491	16,165	21
Net assets	46,197	87,480	(47)
Equity	46,197	87,480	(47)

#### NOTES

 Cash depletion normal operations - fixed in Q1, reduced receivables with removal of unrecoverable, inventory balances aligned to timing with pipeline and reduced excess inventory balances on hand.

Cashflow

# Strategic Outlook

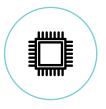

#### Q1 FY2021 Highlights

Year to date revenue of A\$9.5m, 10% ahead of budget, demonstrating accelerated momentum

Year to date Cash of A\$35m

Automotive expands semiconductor partner engagements

US investment shores up balance sheet and fully funds current business plan

Automotive division launched Occupant Monitoring System technology

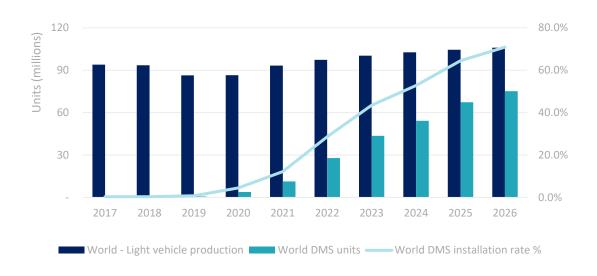

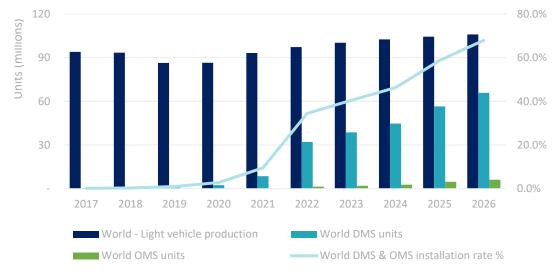

Aviation signs MOU with L3Harris to develop global non-exclusive license for eye-tracking into Simulators for enhanced training

#### Automotive

- Driver Monitoring System (DMS) market expanding as safety takes priority in semi-automated driving conditions
- OEMs looking to monitor entire cabin. Seeing Machines launched Occupant Monitoring System (OMS) technology post-period.

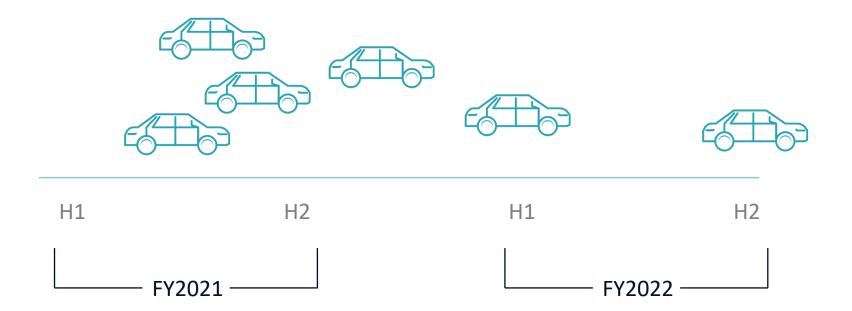

Source: "ADAS Automotive IR Vision Driver Monitoring Systems" 2020 Edition, Semicast Research.

Source: "Camera-Based Driver and Occupant Monitoring Systems" Q1 2020, ABI Research.

#### Near Term Production Vehicles

A multitude of models, across six global OEMs start production this Financial Year, to generate Automotive revenue for Seeing Machines.

#### The Challenge:

Large portfolio of vehicle models each with unique packaging challenges.

#### The Solution:

An optimized DMS for a single packaging and integration option that covers entire portfolio.

Standalone ECUs

**Instrument Clusters** 

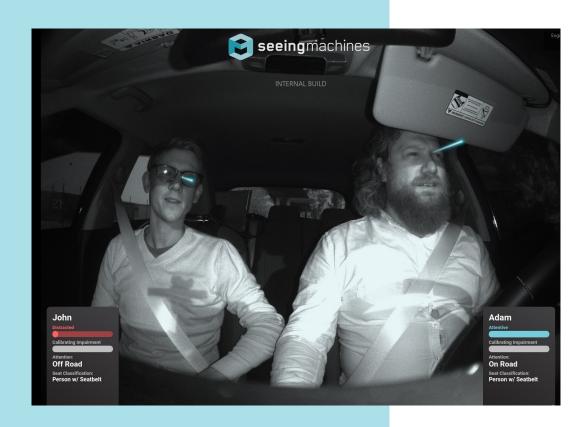

Mirror/Headliners

Infotainment

**Central ADAS Compute** 

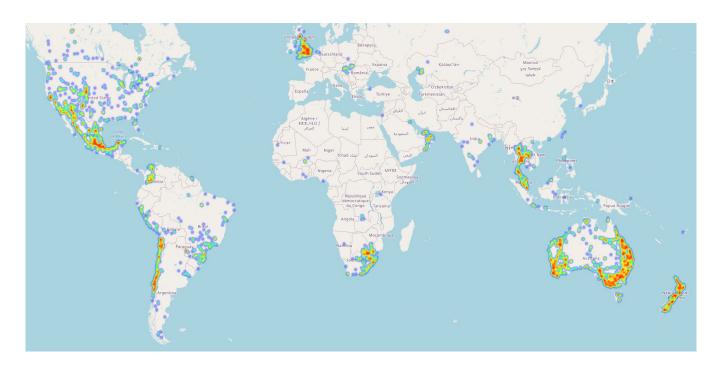

#### **Automotive Strategy**

- Evolution of DMS three pillar embedded strategy
- Seeing Machines set to deliver optimized DMS for any integration point within the vehicle
- Significant partnerships expand opportunity Xilinx,
   Qualcomm, other
- DMS lauded as key to enabling any level of automation to ensure high levels of driver assistance are balanced by driver engagement levels
- Launch of Occupant Monitoring System (OMS) capability

#### Fleet: Guardian Connections Accelerate

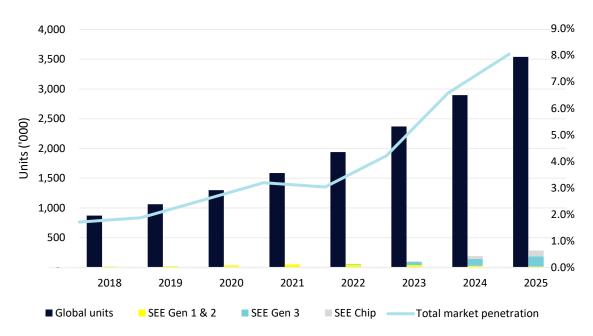

- Guardian connected to over 23,000 units across 26 countries, globally
- 7.6 MILLION distraction events detected
- >165 THOUSAND fatigue interventions in the past
   12 months
- Unique customers grew over 60% to 650 at end of FY2020
- Price reset, channel expansion
- Q1 FY2021 revenue ahead of YTD budget due to better than predicted hardware sales
- Technology roadmap for Guardian advanced leverage Seeing Machines Driver Monitoring Engine and Chip technology to reduce cost and simplify installation

#### Fleet – Market Opportunity

Global Video Safety Solutions Market, Seeing Machines predicted share

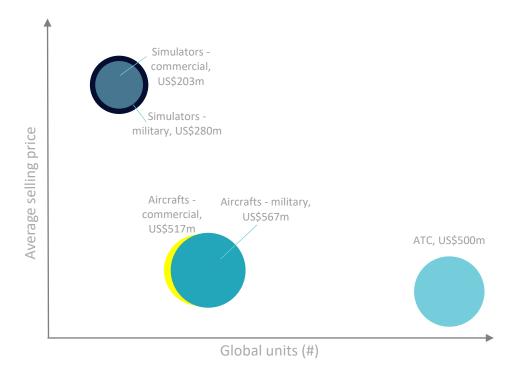

Source: "Global Truck Video Safety Solutions Market, Forecast to 2025" Frost & Sullivan January 2020

- Total Market Opportunity for Video Telematics across Commercial Fleet continues to grow
- Regulation impacting awareness and uptake
- Insurance tie-ups continue to buoy potential, especially in Asia Pacific and Mexico
- Distribution / Channel expansion fundamental to leveraging total market opportunity
- Guardian roadmap supports significant growth opportunity in forward years.

#### Aviation – Market Opportunity

Total Serviceable Market for SEE Eye-Tracking across Aviation Industry

Source: "Commercial Market Outlook 2020-2039", Boeing and Seeing Machines company information.

- Seeing Machines has spent 5 years creating a market for eye-tracking capability, and its utility across the Aviation industry in three specific streams:
  - Simulators (Training)
  - Aircraft (Pilot Monitoring)
  - Consoles (Air Traffic Control)
- Momentum advances from proof of concept into commercialization – demonstrated by MOU for non-exclusive global License with L3Harris.

### Summary

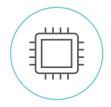

# Validated, scalable, world-leading DMS technology

Automotive market
for DMS developing
quicker than
expected. SEE
opportunity
accelerating –industry
leading Al-driven DMS
technology and
significant, naturalistic
dataset

Regulation driving demand across all transport sectors, especially in Europe and North America

FOVIO Chip launched in first production vehicle providing scalable, upgradable delivery of software into high volume markets

NCAP variant launched to address low cost, high performing fast-tomarket solution

Focus on profitable recurring revenue

Insurance channel developing fast as move to endorse product for improved risk profile

Significant opportunities in emerging transport markets with key partners

Strategy shift to leverage Intellectual Property asset across transport sectors to expedite massmarket deployment in strategic markets

## Thank you

80 Mildura St, Fyshwick Canberra ACT 2609
