About Seeing Machines

Seeing Machines (LSE: SEE) is an industry leader in computer vision technologies which enable machines to see, understand and assist people. The Company deploys its machine learning vision platform to deliver real-time understanding of people and drivers through AI analysis of head-tracking, face-tracking and eye-tracking for Driver Monitoring Systems (DMS), which monitor driver attention state including drowsiness and distraction. DMS is now considered a primary automotive safety technology as well as a core enabling technology for ADAS/Autonomous Driving. The Company's pioneering commercial fleet solution (Guardian) delivers an after-market, in-cabin safety intervention system with 24/7 monitoring and cloud analytics services delivered on a telematics SaaS basis. The Company also serves the Aviation, Rail and Off-Road markets as well as driving innovative solutions for new markets. Based in Canberra, Australia with a growing global footprint, the Company delivers multi-platform solutions from embedded software and processors to aftermarket systems and service solutions to industry leaders globally. www.seeingmachines.com.
