

Seeing Machines Limited (“Seeing Machines” or the “Company”)

9 September 2022

Seeing Machines London presentation - postponed

Seeing Machines Limited (AIM: SEE, “**Seeing Machines**” or the “**Company**”), the advanced computer vision technology company that designs AI-powered operator monitoring systems to improve transport safety, announces that the in-person business presentation, scheduled for 13 September, will be postponed.

Due to the untimely death of Queen Elizabeth II, Seeing Machines will postpone the scheduled Town Hall as a mark of respect and in anticipation of significant disruption across the UK. The event will move from Tuesday 13 September 2022 to a date in early October, which will be confirmed as soon as possible.

About Seeing Machines (AIM: SEE), a global company founded in 2000 and headquartered in Australia, is an industry leader in vision-based monitoring technology that enable machines to see, understand and assist people. Seeing Machines’ technology portfolio of AI algorithms, embedded processing and optics, power products that need to deliver reliable real-time understanding of vehicle operators. The technology spans the critical measurement of where a driver is looking, through to classification of their cognitive state as it applies to accident risk. Reliable “driver state” measurement is the end-goal of Driver Monitoring Systems (DMS) technology. Seeing Machines develops DMS technology to drive safety for Automotive, Commercial Fleet, Off-road and Aviation. The company has offices in Australia, USA, Europe and Asia, and supplies technology solutions and services to industry leaders in each market vertical.
